### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

#### Industry Structure and Development, Opportunities and Threats

Woven fabric is a textile formed by weaving. It is produced in a loom and made up of many tiny threads woven on a warp and a weft. Woven polypropylene/HDPE bags or simply woven PP/HDPE bags are considered to be the toughest packaging bags, widely used to pack materials for grain, milling, sugar, cement chemical & various other industries.

HDPE/PP oriented strips are becoming increasingly popular in India on account of their inertness towards chemical, moisture and excellent resistance towards rotting and fungal attack and have caught the eye of many end users for their requirement of packing materials. The HDPE/PP Woven sacks laminated with LDPE/PP liners have wider applications. They are lighter in weight & elongation at break is about 15-25% as compared to 30% of Jute (being other preferred product for packaging industry).

There is a huge demand for FIBC bags in the international market. Absence of China in this sector makes India a larger exporter in FIBC bags, we already had a small setup in FIBC section which cater the need of the domestic market and in our recent expansion plan we will increase the volume of production of FIBC Bags to a level that will make us recognize internationally. Recent Studies shows that Indian Government has shifted its need of Bags for pulses, wheat from jute to Plastic Bags as the Jute Bags Vendors are constantly failing to fulfill their commitments of supplying the Jute Bags due to which huge loss has been suffered by govt. every years, further Indian Govt. has shown a sign of increasing the requirements of Plastic bags in coming years.

On the other hand this industry poses high threats from situations like Draught as its products are mainly used for packaging of Agricultural products, conditions like draught creates crisis for agricultural products which in turn would lead to fall in demand of bags. At times the Statutory Regulations like change in Rate of Duty, exclusion or inclusion of product into tax regime etc. also adversely affect the demand for the products of the Company viz. a few years ago govt. has mandated the use of jute bags for packaging of various food grade items which in turn caused a very huge fall in demand for these bags.

Our Company is planning for installation of Solar Panel so that its operation does not get effected by the disruption of power supply on account of rains, festivals etc.

#### Recent Trend & Future Outlook

The recent trend is quite favorable for the industry in view of good monsoon as the Company has sizable presence in fertilizer sector. The opening up of food grains sector will enable the Woven Sacks industry to see better times again.

The long-term outlook for this sector is optimistic as the Indian per capita polymer consumption is only 40% of the global average. A majority of the respondents are of the view that the sector grew faster than the overall industry. Margin performance was mixed in the last 6–12 months, primarily due to a neutral/negative outlook for various product prices. Although the view on new capital investments was mixed, most companies are in favour of significant (20% or more) capacity expansion. There is optimism for the future, with all companies planning to add to the workforce. Infrastructure investments and growth of construction and housing projects; technology evolution that allows plastics to be replaced by wood, metal and glass; increasing penetration of organized retailing and e-commerce; increasing adoption of poly film packaging in the food and beverage industry; and increasing consumption in rural India are considered to be the key factors driving growth in this industry. Over the next 12 months, many companies plan to expand to new export markets and raise capital. The top concerns mentioned by respondents are the volatile/high prices of raw materials and increased cost pressures, especially from wages.

#### Risks and Concerns

The industry is plagued by intense competition due to major petrochemical manufacturers making available cheap raw material abundantly. Volatility in raw material price due to crude price. This industry is highly dependent on agricultural products which in turn easily gets effected by natural calamities like drought, flood etc. thereby adversely affecting the demand for products of the Company.

#### Internal control systems and their adequacy

The Company maintains adequate internal control systems commensurate with the Company's size and business, which provide, among other things, reasonable assurance of recording the transactions of its operations in all material aspects and providing protection against misuse or loss of the Company's assets. The systems and processes are continually reviewed for their effectiveness by the company.

### **Financial and Operating Performance**

The operating revenue stood at Rs. 4722.63 Lakhs (Rs. 3571.78 Lakhs in FY 2016-17) and operating profits at Rs. 241.50 Lakhs (Rs. 170.83 Lakhs). The gross profit margin has increased from 14.01% last year to 26.09% in the present year. Moreover after the expansion the Company would be able to generate higher profits on account of increased production and minimization of costs.

### **Material developments in human resources & industrial relations including number of people employed**

Human resource functions and initiatives of your Company to attract, train, retain and motivate employees are driven by defined value based policies. Your Company continuously takes adequate and necessary steps to maintain a competitive, healthy and harmonious work environment and cordial industrial relations with all its customers, suppliers etc. As on 31<sup>st</sup> March 2018, there were 62 employees in the Company.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial

control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. z

## ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

**(Referred to in paragraph 2(f) under 'Report on Other Legal & Regulatory Requirements' section of our report of even date)**

**Report on the Internal Financial Controls Over Financial Reporting under clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013 ("the Act").**

We have audited the internal financial controls over financial reporting of M/S. SMVD POLY PACK LIMITED ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. Those Standards and the Guidance Note require that we comply with ethical

## ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

The company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Annexure 'A' to the Independent Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal & Regulatory Requirements' section of our report of even date)

### Report on the Internal Financial Controls Over Financial Reporting under clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

SMVD POLY PACK LIMITED** ("the Company") and its associate company incorporated in India as of 31 March 2018 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its associate company incorporated in India, is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and its associate company incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

The company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial

control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company and its associate company incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
